Sites Notification

Dear Sir:

Re: Stetzer Road Landfill

A completed EPA Form 8900-1, Notification of Hazardous Waste Sites, is enclosed.

The form identifies a site at which industrial wastes have been disposed at some time in the past. We submit the enclosed form, because some of these wastes may be classified as "hazardous" under the Federal Hazardous Waste Management Program. Under certain conditions, small amounts which exceed EP toxicity thresholds have been observed in a small area on an intermittent basis. Because of the small quantities and the circumstances, it is not believed that any releases pose a significant environmental threat.

Any such "hazardous wastes" were disposed of in connection with much larger quantities of solid waste which EPA has not identified as hazardous, and the notification form should be read in that perspective. For example, in Section "F", we identified the entire parcel of land as the "Total Facility Area". We have not been able to estimate confidently the amount and area of hazardous wastes from reasonably available records and the depth of inquiry contemplated by the Act.

Sincerely,

SWAN HOSE DIVISION
